# My process

- Complete all the keyframes
- Complete the music of Act 1-3
- Start to coloring and do some After Effects.

- But for the time limitation and insufficient personal energy
- Only complete Act 1-3 for submission. So sorry....

# What I have changed / improved :

- **MUSIC** : (story of "oop", so I try to repeat part of melody).
- **Montage** : (For the design of "memories", and "friendship". I add some montages in act 5).
- **Pace of animation** : (The tempo of the first two acts is accelerated with music)
